Certifications

- C Language certification-Infoys
- Java Programming Certification – Infosys
- Python Programming Certification – Infosys
- HTML,CSS Web Development Certification.
- Agentforce Specialist certified by salesforces

Projects

AuthentiScan-AI | 2026

AI-Powered Fake Product Detection and Verification System

- Developed an AI-powered web application to detect counterfeit products using image analysis, barcode verification, and product metadata validation.
- Integrated Google Gemini AI for intelligent product assessment, conversational assistance, and live voice interaction.
- Implemented real-time scan history, authenticity scoring, verified marketplace recommendations, and

audit reporting features.

- Built using React, TypeScript, Vite, Express.js, WebSockets, and Gemini API with support for image uploads and voice communication.

Demand Prediction and Inventory Planning AI | 2026

AI-Powered Forecasting and Inventory Management System

- Developed an AI-based web application to predict product demand using historical sales data and machine learning algorithms.
- Implemented demand forecasting models to help businesses optimize inventory levels and reduce stock shortages or overstock situations.
- Built an interactive dashboard for sales analysis, inventory tracking, and future demand predictions.
- Integrated data visualization tools to display trends, forecasts, and inventory insights for decision-making.
- Developed using Python, Machine Learning, Streamlit, Pandas, NumPy, and Data Visualization libraries.

Technical Skills

Programming Languages: C, Java, Python, SQL

Web Technologies: HTML, CSS

Languages: English (Fluent), Telugu (Fluent), Hindi

Hobbies

- drawing
- Playing badminton
